

Aim:

Join us for an insightful seminar where you will gain a comprehensive understanding of the transformative impact of Bitcoin and other cryptocurrencies on society. This seminar will cover the following key topics:

- **In-depth Understanding of Cryptocurrencies:** Explore the advantages that Bitcoin and other cryptocurrencies bring to society, highlighting their potential to revolutionize financial systems and promote economic inclusion.
- **Vulnerabilities of Traditional Ledgers:** Identify the weaknesses inherent in traditional ledger systems and understand how blockchain technology addresses these issues by introducing decentralization to various industry processes.
- **Best Practices for Purchasing and Storing Cryptocurrencies:** Learn about the most effective methods and best practices for safely purchasing and securely storing cryptocurrencies, ensuring your digital assets are well-protected.
- **Emerging Trends in the Crypto Industry:** Stay ahead of the curve by gaining insights into new and emerging trends within the crypto industry, preparing you for the future landscape of digital finance.

Who should attend the Seminar:

Product & Program Managers, Innovation Managers and Entrepreneurs, Advisors and Business Analysts, Crypto Enthusiasts, any individual interested in blockchain technology and cryptocurrencies.

Cryptocurrency Fundamentals

Instructor:

Dr. Andreas Vlachos

Andreas Vlachos has been a professional in the field of Blockchain since 2014 and a holder of an MSc in Digital Currency degree and a PhD degree on the topic of blockchain readiness by the University of Nicosia. He has served as the Binance Growth Manager in Greece and Cyprus, and is now the EU Community Operations Manager at Bitget, managing regional community operations. Previously he has worked for 4 years at the University of Nicosia, focusing on construction of academic material and collaborations with various bodies within the crypto ecosystem. He has also worked as a Business Development Director at crypto startups such as the San-Francisco-based ODEM.io and TrustSwap one of the top Blockchain startups in the world.
